VENDING MACHINE LILLY MODEL

Lilly is the distributor of the "Gelato Straordinario" line with the greatest load capacity, thanks to the 6 internal shelves made up of modular and customizable drawers. These drawers can have from 2 to 10 aisles with spiral or conveyor belt product advancement systems. Thanks to this feature, the various types of products are loaded more easily, thus limiting temperature loss and energy consumption.

DELIVERABLE PRODUCTS

Ice cream cup, starting from the 165ml format from the 165ml size containing approximately two scoops, up to the 970ml can.

Glass ice cream specialty cups using the 200, 350 or 500ml glasses from the Gran Glass line.

To hermetically close the glass and thus preserve the quality of the ice cream, heat-sealable aluminum films are used.

Ice cream in family pack format in classic polystyrene containers, cardboard packages of the classic cones, toothpicks or ice cream biscuits, Circular ice cream cakes up to 20cm in diameter or other specialties in packages up to 30cm wide.

For example: Lilly configured with 6 drawers by 10 aisles can hold 360 165ml jars of ice cream. The average total value of which is €1260

PAYMENT AND COMMUNICATION

This vending machine model can be equipped with various payment systems, such as coin acceptor, banknote reader and POS.

There is also the possibility of installing a fourth system that works through an application and a customizable electronic purse.

In addition to the payment systems, Lilly is equipped with a sophisticated communication system which, through a dedicated application, sends all the machine information in real time. Therefore, sales, stocks, receipts and any problems are displayed directly on your mobile phone. In this way you can have an entire fleet of machines under control.

INSTALLATION AND OPTIONS

The distributor was designed to be able to be installed outdoors as well, for its correct operation operation must however be protected from atmospheric agents.

For this purpose, two options are available, made expressly for this model, it is a single-pitched metal roof painted in matt black which attaches to the upper structure of the distributor and a house, whose side walls are customizable, specifically designed for promote the business or products for sale.

Of course the dispenser can also be customized, both laterally and frontally with dedicated graphics.

EQUIPMENT

Lilly is equipped with a bright 10" **touch screen** where the customer can find images of the various products on sale. Each image has a section dedicated to in-depth information on the selected product, such as information on ingredients, allergens, nutritional values and much more.

The management of images, information and price setting takes place through dedicated software and a cloud supplied by us.

In addition to the 10" screen, a version with a 21" screen is available

In addition to the large loading capacity, a peculiarity of Lilly is that of having an **internal lift** which, moving vertically, recovers the selected product and then takes it to the door of extraction.

This particular door is located in the middle of the dispenser, at an ideal height to be able to extract the products effortlessly even from children and people with disabilities. This is an automatic door with many motion detection sensors and opens only when the product is ready to be collected.

SERVICES AND GUARANTEES

Delivery times after the order are approximately 60 working days, 20 in the case of a machine was already available at our headquarters.

Installation of the machine, **training** on its correct use and any interventions **maintenance**, will be carried out by our specialized staff.

For the first 12 months from the day of installation, the dispenser and its various options will be covered by the official manufacturer's warranty.

From the second year there will be the possibility to subscribe to the **MAP3 SERVICE "LILLY PACK"**, the service of maintenance and extension of the ice cream vending machine warranty.

To complete the offer, we are able to supply jars suitable for the internal spaces of the vending machine, personalized labels, personalized laser-worked glasses and related aluminum closures, wooden or steel spoons, graphic designs, paper promotional material and much more to support the investment made.

MEASURES

Lilly measures 215cm high, 128cm wide and 105cm deep.

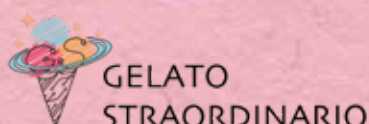

The weight is 500Kg.

The power supply is 220V and absorbs an average of 0.8Kw/h.

To manage the cloud, it requires a network connection.
