VENDING MACHINE MILLY MODEL

Milly is the vending machine of the "Gelato Straordinario" line with a medium load capacity thanks to the 4 internal shelves made up of modular and customizable drawers.

These drawers can have from 5 to 6 aisles with spiral product advancement systems.

Thanks to the guides on which they slide, the drawers can be easily extracted to load more of the various products quickly, thus limiting temperature loss and energy consumption.

DELIVERABLE PRODUCTS

Ice cream cup, starting from the 165ml format containing approximately two scoops, up to the 470ml cup, **Ice cream specialties** in a 350ml jar, Cones, toothpicks and ice cream biscuits

For example: Milly configured with 4 drawers with 6 aisles can contain 120 165ml cups of ice cream, the average total value of which is €420.

An interesting option that allows Milly to sell more products is insertion of a 5th drawer. This configuration is ideal for those who only want to sell 165ml cups, because their quantity would go from 120 to 150 total pieces

EQUIPMENT

Milly is equipped with a **touch screen** where you can enter the code relating to the chosen product which will be dispensed by gravity and withdrawn by manually opening the dedicated drawer.

PAYMENT AND COMMUNICATION

This vending machine model can be equipped with various payment systems, such as the **coin acceptor**, the **banknote** reader and the **POS**.

There is also the possibility of installing a fourth system that works through an application and a customizable electronic purse.

In addition to the payment systems, the Milly is equipped with a sophisticated **communication system** which, through a dedicated application, sends all the machine information in real time. Therefore, sales, stocks, receipts and any problems are displayed directly on your mobile phone. In this way you can have an entire fleet of machines under control.

INSTALLATION AND OPTIONS

The vending machine was designed to be able to be installed outdoors as well, for its correct operation operation must however be protected from atmospheric agents. For this purpose, two options are available, made expressly for this model, it is a single-pitch roof in matt black painted metal that attaches to the upper structure of the distributor and a small house, whose side walls are customizable, specifically designed to promote the activity or the products on sale.

Naturally, the dispenser can also be customized, both laterally and frontally with dedicated graphics.

SERVICES AND GUARANTEES

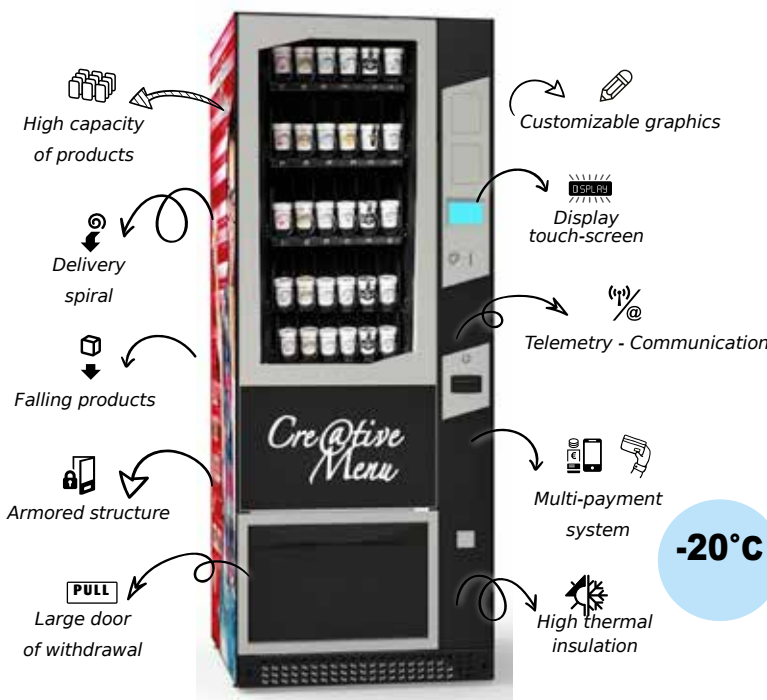

Delivery times after the order are approximately 30 working days, 20 if a machine is already available at our office.

Installation of the machine, **training** on its correct use and any **maintenance** interventions will be carried out by our specialized personnel.

For the first 12 months from the day of installation, the dispenser and its various options will be covered by the official manufacturer's warranty.

From the second year there will be the possibility to subscribe to the MAP3 SERVICE "MILLY PACK", the service of maintenance and extension of the ice cream vending machine warranty.

To complete the offer we are able to supply cups suitable for the internal spaces of the vending machine, personalized labels, wooden or steel spoons, graphic designs, paper promotional material and much more to support the investment made.

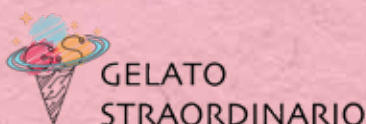

MEASURES

Milly measures 183cm in height, 75cm in width and 80cm in depth. The weight is 250Kg. The power supply is 220V and absorbs an average of 0.6Kw/h.
